*This certificate implies that the above property is actively involved in the participation and installation of recycled products. House of Floors, Inc. & Shaw Industries certifies that the above named property is participating in the collection of Post-Consumer carpets that are being recycled into the building block of the new nylon fiber called Ever Again. Ever Again recyclable nylon is the active fiber type in the "ECO" style of carpet which is currently being installed on this property.*

*Together this partnership and our efforts have and will continue to help minimize the consumption of precious raw materials such as oil and petroleum as well as result in the diversion of hundreds of millions of pounds of carpet from entering our landfills annually.*
